

## Aura Release Notes

### June 6<sup>th</sup> 2017 Release

---

In order to meet the changing needs of our clients, iATS Payments is releasing a number of updates and feature changes to Aura on June 6<sup>th</sup> 2017.

### New functionality

- Custom Question Items 7-15 added to Aura, Aura Post Back, and iATS Download Journal report.
- Ability to add multi-select to all Custom Question Items. This allows a donor to choose more than one response to a question.
- Additional fields can be added to Aura Emails:
  - Transaction ID
  - All Recurring fields such as Start and End Date
  - Custom Question Items 1-15, and donor responses
- New fields added to the iATS Download Journal reports:
  - Aura Event Name
  - Company Name
  - Custom Question Item labels 1-15, and responses for 7-15
  - Title
- Amounts will display decimal if added, or no decimal if preferred. Controlled via new checkbox on Aura Setup Amount tab.
- Maximum number of item "Quantity" can be set via Aura setup Amount tab.
- Mobile friendly options now available for Preset Stylesheets on Aura Setup Form tab.
- Title field can be typed.
- Google Analytics compatibility.
- Configurable Redirect URL based on Custom Question Item 1-15 response selection.

- Multiple new functions add to Payment Frequency section of the Payment tab:
  - Ability to configure the default begin and end date for a given schedule type
  - Ability to restrict the selectable dates to one of two dates, for example if Monthly is selected the donor can only choose the dates of the 1st or the 15th of the month
  - Ability to hide of start/end dates via Aura Setup Payment tab by unclicking the “Visible” checkbox
  - Ability to default all Recurring fields via URL and Script pre-populate/default methods

## Design Changes

- Credit Card fields changed from four-box design to one-box design.
- All Forms listed in Alphabetical order within the “Select a Form” field in Aura setup.
- Improved functionality for Email and Re-Enter Email fields.

## Bug Fixes

- Ability to deselect a radio button choice in Custom Question Items 1- 15.
- Fix layout of calendar control which wasn’t rendering properly in some browsers.

## December 4<sup>th</sup> 2015 Release

---
